WELCOME TO OUR COMPANY

LEARN MORE

Established in 2021, Ayeh Agency is a dedicated geotechnical engineering service provider offering comprehensive site investigation and foundation engineering solutions. The firm focuses on developing local expertise while delivering international-standard engineering services through technically sound and reliable practices.

VISION & MISSION

Vision

Our vision is to become a trusted geotechnical engineering service provider by delivering accurate, dependable, and cost-effective solutions.

Mission

Our mission is to support infrastructure development through quality-driven processes, modern investigation techniques, and professional execution.

WHAT DO YOU KNOW ABOUT OUR COMPANY?

Our team comprises experienced civil engineers, geologists, surveyors, supervisors, operators, and skilled field staff with over 4+ years of collective experience.

QUALITY & COMPLIANCE

We operate in compliance with ISO-certified procedures and collaborate with accredited laboratories to ensure quality, accuracy, and reliability.

SERVICES PROVIDED

- Geotechnical Investigation (Borehole drilling, SPT, Rock coring, Trial pits)
- Safe Bearing Capacity (SBC – Safe Bearing Capacity) determination
- Foundation depth and type recommendations
- Slope stability analysis using GeoStudio
- Foundation analysis using PLAXIS 2D
- Laboratory testing of soil and rock samples through accredited laboratories
- Piling works including cast-in-situ piles
- Pile load testing (initial and routine tests)
- Water borewell drilling services

NOTABLE PROJECTS
